

Department of Chemistry and Biochemistry

UMBC
AN HONORS
UNIVERSITY
IN MARYLAND

Ph.D. in Chemistry and Biochemistry

Graduate Degree Programs

Chemistry Ph.D. Program

Highly cross-disciplinary and interactive research groups including all major areas of chemistry and biochemistry

Inter-campus Biochemistry Ph.D. Program

Work with faculty from the Department of Chemistry and Biochemistry at UMBC and the Department of Biochemistry and Molecular Biology at the University of Maryland School of Medicine

Affiliated Programs

Chemistry/Biology Interface Program

Obtain Ph.D. with additional focus on biology through this nationally recognized, National Institutes of Health-funded program with special fellowships available

Meyerhoff Graduate Program

Special fellowships designed to promote cultural diversity in the biomedical sciences available to students in any of the graduate programs above
